Open Sans

Text

The text ellements position is relative to one of nine anchor points on the card.

A textbox allows a width and height. (Advanced settings for padding?)

The text can be a custom string or it can be linked to an attribute name or value.

The "Monster" card template's textbox "Name" is too small for this card's "name" attribute.

Since multiple cards can (and should) use the same template, the user should know when a card cannot display their information correctly.

If text does not fit on a card, or it cannot fit inside a textbox, the text element and the affected cards will give a warning.
Hold the cursor on a warning to get more info.
